The side walls of the revetments were shored and the ramps were reinforced. The earth banking on both sides of the revetments and their approaches were covered with netting.

(TSR) A rectangular canvas-covered framework [REDACTED], a vehicle, and a six-ribbed framework were on the north side of the revetments. A subsurface structure, personnel trenches, and a bilevel platform were on the south side. Three pieces of netting were on or near the personnel trenches. A third, smaller revetment [REDACTED] to the east and the bilevel platform have been present since October 1975.
